Office, or at the Gym.**

FLEXBELL

Fitness Dumbbell

The result is a better look – a better physical Well-being – and a start of a New Lifestyle.
Thanks to the innovative patented technology and unique design, it allows you to select the weights you want, simply by turning the milled soft grip handle forward or backward.

WEIGHT RANGE (KG)

The numerical scale shows the desired weight in each handle on the inner sides in 4 kg steps.

FLEXBELL

Fitness Dumbbell

The 12x3 cm Dumbbell handles offer an optimal support and training comfort thanks to their milled soft grip. The Dumbbell bottom is flat and not round, a roll away on the floor is not possible.

The Flexbell Floorstand (optional) enjoys a small footprint of only 0.3 square meters.
